

EMMANUEL TOFUNMI

Frontend Engineer (TypeScript / React / Next.js)

Lagos, Nigeria | +234 901 948 7450 | hemazyn@gmail.com | iamtofunmi.vercel.app

PROFILE

Frontend engineer with 5+ years building production-grade interfaces for fintech, CRM, e-commerce, and admin dashboard platforms. Currently shipping frontend architecture at an early-stage startup while contracting for founders on TypeScript/React products end-to-end. Comfortable owning ambiguous, fast-moving builds with minimal supervision, translating Figma designs into polished, accessible UI, and using AI coding tools to move faster without cutting corners.

WORK EXPERIENCE

Frontend Developer — Tech201 *Jul 2025 – Present*

Full-time · Remote

- Own frontend architecture for the company's web platforms, building and shipping features end-to-end using Next.js, React, and Tailwind CSS.
- Improved page load times by 40% by redesigning rendering strategy from client-side to SSR/ISR, directly boosting SEO and perceived performance.
- Shipped 5+ major features on schedule by working directly with product designers and backend engineers in a small, high-ownership team.
- Built a reusable component library that cut duplicate UI work across multiple internal projects.

Stack: Next.js, React, TypeScript, Tailwind CSS, REST APIs, Git

Frontend Engineer — Spectra Technologies *Apr 2026 – Present*

Contract · Remote — SpectraPay, a crypto-to-fiat fintech platform

- Built customer-facing dashboard interfaces for wallet management and transaction history from the ground up for an early-stage fintech product.
- Implemented secure, performant UI flows for KYC, payments, and onboarding, working closely with a founder-led team in a pre-seed environment.
- Took ownership of frontend delivery with minimal oversight, similar to a founding-engineer style role.

Stack: React, Next.js, TypeScript, Tailwind CSS, REST APIs

Frontend Developer — VastRemit *Apr 2026 – Present*

Side project · Remote — cross-border payments platform for African users

- Developed core payment flows and account dashboards using React and Next.js for a cross-border remittance product.

- Built responsive, accessible UI components for transaction and account management, with real-time status handling.

Stack: React, Next.js, Tailwind CSS, REST APIs

Freelance Frontend Developer — Fiverr, Upwork & direct clients (incl. Dimmy Decor Events) 2019 – Present

Freelance · Remote

- Delivered responsive, accessible websites and React applications for a range of independent clients since 2019.
- Built and maintained an events-management website for a live client (Dimmy Decor Events) over multiple years, handling ongoing feature requests and upkeep.
- Translated Figma designs directly into production UI, managing projects independently from client brief to deployment.

CORE SKILLS

Languages: TypeScript, JavaScript

Frameworks: React, Next.js, Vite

Styling: Tailwind CSS, SCSS, Styled Components, Framer Motion

Tools & Workflow: Git, Figma (design-to-production), REST APIs, GraphQL, Vercel, AI coding tools (Cursor, ChatGPT, GitHub Copilot)

Practices: Responsive Design, Accessibility, Performance Optimization, Component Architecture, SSR/ISR

Product Areas: Fintech, CRM Systems, E-commerce, Admin Dashboards, Embedded Widgets, Design Systems

EDUCATION

B.Sc. Computer Science — University of the People

2023 – Present

CERTIFICATIONS

- Responsive Web Design — freeCodeCamp
- JavaScript Algorithms and Data Structures — freeCodeCamp
- Front End Development Libraries — freeCodeCamp
- Certificate of Recognition, Arit Developer Circle Hackathon — May 2025
